

WISPER SCTRATCH GUARD

APPLICATION METHOD

Wisper scratch guard is a durable high-grade colourless urethane film applied to high-impact areas of your bicycle. The film helps protect from stone chips, folding impact, as well as punishing outdoor weathering. Wisper use this film to protect visible surfaces, Wisper scratch guard offers excellent film clarity and gloss retention.

For best results, wash hands thoroughly before application to avoid film contamination, such as fingerprints, which are difficult to remove. Check paint manufacturer's instructions for recommended cure time and method.

A – 197mm X 17mm

B – 127mm X 17mm

1. Wash your hands before starting the application, to avoid fingerprints on the adhesive. Thoroughly clean and dry painted surface you will be applying Wisper scratch guard too.
